

Non-Woods Noack Tester VP4000

- ✚ Without Wood Metal
- ✚ Temperature Range 100°C-260°C
- ✚ Temperature Controlled Heating Block
- ✚ Temperature- and Pressure Controller
In One Single Unit
- ✚ Same Crucible as VP250

- ✚ The new Noack Evaporation Tester VP4000 does not need Wood Metal anymore!
- ✚ The VP4000 works with temperature controlled heating block according to DIN 51581 or similar to CEC L-40-A 93 or ASTM D5800 Method A.
- ✚ Any temperature between 100°C and 260°C can be adjusted.
- ✚ Space saving design; Temperature- and pressure controller are in one unit only.
- ✚ VP4000 automates the start procedure! After inserting the crucible, the internal timer starts automatically. No further action from operator is necessary.
- ✚ The VP4000 does not require special crucible! The standard crucible from Woods Metal Noack can be used further more.
- ✚ A vacuum pump with oil filter comes with every VP4000 as standard accessory.

Technical Data:

Order-No.	371-0001	<u>Accessories</u>	
Temperature range:	100-260°C	Glassware Set CEC L-40-A-93	370-1001
Pressure range:	up to 21 mmWS	Stand with inclined manometer	370-1002
Accuracy:	± 0,2°C / ± 0,02 mmWS	Reference Oil RL-208/2, 1Litre	370-1009
Weight:	16 kg	Evaporation Crucible	370-1003
Mains Power	230V 950 W 50 Hz	Measuring liquid f. inclined manometer	370-1011
<u>Standard Accessories:</u>		Balance, 2000g ±0.01g	370-0041
Crucible, tools, gloves, vacuum pump with oil filter		Filter element for Vacuum Pump	371-1231
